## Severe Nut Allergy

**We are asking that you do not send any products containing nuts to school, for example in your child's lunchbox or if you are sending in birthday buns etc.**

**If your child has eaten nuts before coming to school, please be sure your child's hands and face have been thoroughly washed before entering the school. Thank you.**

### Class Attendance, well done to Class 6 with 98.8% well done!

Reception	96.0
Year 1	97.0
Year 2	98.7
Year 3	95.3
Year 4	93.9
Year 5	96.2
Year 6	98.8

### Packed Lunch Reminders

- ◆ Cut Grapes, Tomatoes, long ways
- ◆ No cocktail sticks

### HEADLICE

This is a common community issue, which can be easily identified and treated. It most frequently affects children and the elderly, and spreads easily. Please look through your child's hair thoroughly every week, whether school is in session or not, treating if necessary.

Chemists sell combs and treatments.

**The condition never goes away on its own and needs attention as soon as it's identified.**

If everyone checks as a matter of routine, the incidence of head lice can be kept to a minimum.

Well done to our Year 5 pupils on the SMAT Enterprise
